SOCIODY

Courses offered by the Department of Sociology are listed under the subject code SOC on the Stanford Bulletin’s ExploreCourses web site.

Sociology seeks to understand all aspects of human social behavior, including the behavior of individuals as well as the social dynamics of small groups, large organizations, communities, institutions, and entire societies. Sociologists are typically motivated both by the desire to better understand the principles of social life and by the conviction that understanding these principles may aid in the formulation of enlightened and effective social policy. Sociology provides an intellectual background for students considering careers in the professions or business. Students may pursue degrees in sociology at the bachelor’s, master’s, or doctoral levels. The department organizes its courses by areas of study to assist students in tailoring their education and research to their academic interests and career goals.

Mission of the Undergraduate Program in Sociology

The mission of the undergraduate program in Sociology is to provide students with the skills necessary to understand and address social problems and inequalities in global, institutional, and interpersonal social relations. At its core, the curriculum in the major is rooted in social theory and the scientific method. Sociology majors are given opportunities to develop a broad understanding of core sociological theories and the methodological skills used to evaluate human behavior and social organizations. Sociology provides an intellectual background for students considering careers in business, social services, public policy, government service, international nongovernmental organizations, foundations, or academia.

The Sociology major consists of a core curriculum plus elective courses intended to provide breadth of exposure to the variety of areas encompassed by sociology.

Learning Outcomes (Undergraduate)

The department expects undergraduate majors in the program to be able to demonstrate the following learning outcomes. These learning outcomes are used in evaluating students and the department’s undergraduate program. Students are expected to demonstrate:

1. an understanding of core knowledge within the discipline of sociology.
2. the ability to communicate ideas clearly and persuasively in writing.
3. the ability to analyze a problem and draw correct inferences using qualitative and/or quantitative analysis.
4. the ability to evaluate theory and critique research within the discipline of sociology.

Graduate Programs in Sociology

The Department of Sociology offers three types of advanced degrees:

- the Doctor of Philosophy
- the coterminal Master of Arts in Sociology which is restricted to currently enrolled Stanford undergraduates
- the Master of Arts in Sociology which is available to Stanford students who are currently enrolled in other advanced degree programs.

The department does not have a terminal M.A. program for external applicants.

Learning Outcomes (Graduate)

The purpose of the master’s program is to further develop knowledge and skills in Sociology and to prepare students for a professional career or doctoral studies. This is achieved through completion of courses, in the primary field as well as related areas, and experience with independent work and specialization.

The Ph.D. is conferred upon candidates who have demonstrated substantial scholarship and the ability to conduct independent research and analysis in Sociology. Through completion of advanced course work and rigorous skills training, the doctoral program prepares students to make original contributions to the knowledge of Sociology and to interpret and present the results of such research.

Areas of Study

The Department of Sociology specializes in four general areas of study, allowing students to tailor their education and research to their academic interests and career goals. The five areas of study supported by the department are:

Organizations, Business, and the Economy

Focus is on the arrangements which societies construct for the provision of material goods or services. A formal organization which provides goods or services for profit and sells them through a market is called a business, and the economic system is capitalism. Social needs are also met through government and not-for-profit organizations, such as garden clubs, hospitals, prisons, and the Red Cross; some private and social needs are met outside of organizations, such as health care provided by family members and exchange of favors among friends. Courses stress the factors that determine whether needs that people define are met through markets or non-market allocation, through organizations, or by other means. They also investigate the environmental and social factors that shape organization structure, the determinants of how efficiently organizations operate, and the interpersonal processes that shape individual behavior within organizations. Careers related to this field include management and administration in business or public settings, management consulting and analysis, and legal studies related to corporations, organizations, and business.

Social Movements, Comparative Politics, and Social Change

Focus is on the emergence, reproduction, and change of political systems and institutions, especially on why and how different political systems and social movements appear in different times and places, and how differences in political regimes and economic systems influence attempts to change these systems. The origins and significance of national and transnational social movements, transition to democracy, including revolution, nationalism, and other forms of collective action, in creating and sustaining these changes analyzed across countries and over time. Careers that are relevant to this field include law, public policy, government service, nonprofit and international nongovernmental organizations, business organizations (especially those with international interests), consulting, and managerial jobs.

Social Psychology and Interpersonal Processes

Focus is on the social organization of individual identity, beliefs, and behavior, and upon social structures and processes which emerge in and define interpersonal interactions. Processes studied include social acceptance and competition for prestige and status, the generation of power differences, the development of intimacy bonds, the formation of expectation states which govern performance in task oriented groups, and social pressures to constrain deviance. Foundation courses emphasize the effect of social processes on individual behavior and the analysis of group processes. This field provides training for careers with a significant interpersonal component, including advertising and marketing, business, education, law, management, medicine and health, or social work.
Social Inequality
Focus is on forms of social inequality, including fields such as: the shape and nature of social inequalities; competition for power; allocation of privilege; production and reproduction of social cleavages; and consequences of class, race, and gender for outcomes such as attitudes, political behavior, and life styles. Many courses emphasize changes in the structure of social inequalities over time, and the processes which produce similarities or differences in stratification across nations. Topics include educational inequality, employment history, gender differences, income distributions, poverty, race, and ethnic relations, social mobility, and status attainment. Careers related to this field include administration, advertising, education, foreign service, journalism, industrial relations, law, management consulting, market research, public policy, and social service.

Race, Gender, Immigration, Identity and Policy
Focus is on population diversity, primarily in the United States, and on how identity is formed and maintained. Classes in this subject area address segregation, integration, and assimilation. What does it mean to cross from one group to another? How has the law treated racial minorities, sexual minorities, and immigrants differently over time? Careers related to this field include social work, teaching, research, law, management, and population studies which can be applied to any industry.

Joint Programs in Sociology with the School of Law
The School of Law and Department of Sociology conduct joint programs leading to either a combined J.D. degree with an M.A. degree in Sociology or to a combined J.D. degree with a Ph.D. in Sociology.

Law students interested in pursuing an M.A. in Sociology apply for admission to the Department of Sociology during the first year of Law school. Once admitted to the Department of Sociology, the student must complete standard departmental master's degree requirements as specified in this bulletin. Applications for the joint J.D./M.A. degree program must be approved by both the department and the Law school. Faculty advisers from each program participate in the planning and supervising of the student's academic program.

The J.D./Ph.D. degree program is designed for students who wish to prepare themselves for research or teaching careers in areas relating to both legal and sociological concerns. Students interested in the joint degree program must be admitted to both the School of Law and the Department of Sociology. Interest in the joint degree program must be noted on each of the student's applications. Alternatively, an enrolled student in either the Law School or the Sociology department may apply to the other program, preferably during their first year of study. Students participating in the joint degree program are not eligible to transfer and receive credit for a masters or other degree towards the Ph.D. Students must complete the equivalent of 183 quarter units to complete both degrees. Tuition and financial aid arrangements normally are through the school in which the student is currently enrolled.

The Law degree may be conferred upon completion of applicable Law school requirements; it is not necessary to have both degrees conferred simultaneously.

For more information, see the Sociology [web site](https://sociology.stanford.edu/academics/phd-programs/jdphd) and the Law School web site on the J.D./Ph.D. [web site](https://www.law.stanford.edu/degrees/joint-degrees/law-and-sociology)

Bachelor of Arts in Sociology
There are two pathways to a Sociology B.A. degree:

- the Sociology Bachelor's degree, or
- the Sociology Bachelor's degree with the Data Science, Markets, and Management subplan

The following requirements are for the Sociology bachelor's degree. See the Sociology Bachelor's degree with the Data Science, Markets, and Management subplan (p. 3) for degree requirements for that option.

Declaring the Major in Sociology
To declare a major in Sociology, students should declare the B.A. in Axess, then download the major declaration form from the department website. Complete the top portion of the form, sign, and email the Director of the Undergraduate Program in Sociology to set up an entrance advising meeting.

Major Requirements
A 3.0 GPA is required to enter the Sociology major. The B.A. in Sociology requires 60 units of course work. Units applied to the major must be taken for a letter grade (except for independent study or directed reading), and all earned grades must be 'C' or better (except where permission has been granted by the Sociology Director of Undergraduate Studies.)

Unit values for courses can vary from year to year. If you have any questions, contact the undergraduate student services specialist in Sociology.

Students are encouraged to complete some course work at the 200-level. Sociology majors are encouraged to participate in directed research or undertake independent research with Sociology faculty. See the department web site for additional information.

Requirements
Units required for the Sociology B.A. are:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sociology Core Courses (4 courses)</td>
<td>16</td>
</tr>
<tr>
<td>Sociology Foundation Courses (3 courses)</td>
<td>12</td>
</tr>
<tr>
<td>Social Science Electives (Units sufficient to bring the total # of units to 60–usually 4-6 courses)</td>
<td>27</td>
</tr>
<tr>
<td>Methodology, Quantitative or Qualitative (1 course)</td>
<td>5</td>
</tr>
<tr>
<td>Total Units</td>
<td>60</td>
</tr>
</tbody>
</table>
Core Courses Required for the Major
The following core courses are required of all Sociology majors.

SOC 1 or SOC 170 Introduction to Sociology at Stanford or Classics of Modern Social Theory 5
SOC 180A Foundations of Social Research 4
SOC 180B Introduction to Data Analysis 4
SOC 200 or SOC 202 Junior/Senior Seminar for Majors or Junior Seminar: Preparation for Research 4-5
or SOC 204 Capstone Research Seminar

Total Units 17-18

• Students considering honors are encouraged to enroll in SOC 202 Junior Seminar: Preparation for Research in their junior year, in order to have a research plan in place in the Summer before senior year.

Foundation Courses Required for the Major
Sociology majors must complete 3 foundation courses; one course in three different areas for a total of three courses. For further information about Sociology areas of study, see the department web site.

Foundation courses, classified by area of study, are as follows:

Organizations, Business, and the Economy
SOC 114 Economic Sociology 4
SOC 160 Formal Organizations 4
SOC 162 The Social Regulation of Markets 4

Social Movements, Comparative Politics, and Social Change
SOC 118 Social Movements and Collective Action 4
SOC 119 Understanding Large-Scale Societal Change: The Case of the 1960s 5
SOC 130 Education and Society 4-5

Social Psychology and Interpersonal Processes
SOC 2 Self and Society: Introduction to Social Psychology 4
SOC 120 Interpersonal Relations 4
SOC 121 The Individual in Social Structure: Foundations in Sociological Social Psychology 5
SOC 127 Bargaining, Power, and Influence in Social Interaction 5

Social Inequality
SOC 135 Poverty, Inequality, and Social Policy in the United States 3
SOC 140 Introduction to Social Stratification 3
SOC 141 Controversies about Inequality 5
SOC 144 Inequality and the Workplace 5
SOC 149 The Urban Underclass 4

Race, Gender, Immigration, Identity, and Policy
SOC 142 Sociology of Gender 3
SOC 145 Race and Ethnic Relations in the USA 4

Social Science Elective Courses
Social Science electives are required for the major, sufficient to bring the total number of units in the Sociology major to 60. You may take all elective courses in Sociology if you wish. Students may choose their elective courses according to personal interest. Non-Sociology courses must be approved by the Director of Undergraduate Studies. A maximum of 10 units taken in other Social Science departments (Anthropology, Communication, Economics, Political Science, Psychology) may be counted towards the 60 units required for the Sociology B.A.

Methods Requirement
Sociology majors are required to take at least one methodology course, either quantitative or qualitative, to supplement the core and foundation courses within Sociology. Quantitative classes in data analysis, programming, computer science, statistics, mathematics, are all suitable for this requirement, as are qualitative methods classes such as field research methods.

Bachelor of Arts in Sociology with Data Science, Markets, and Management Subplan

Bachelor of Arts in Sociology
There are two pathways to a Sociology B.A. degree:

• the Sociology Bachelor’s degree, or
• the Sociology Bachelor’s degree with the Data Science, Markets, and Management subplan

The following requirements are for the Sociology bachelor’s degree with the Data Science, Markets, and Management subplan. See the Sociology Bachelor’s degree tab (p. 2) for degree requirements for that option.

Declaring the Major in Sociology with Data Science, Markets, and Management Subplan
To declare a major in Sociology, students should declare the B.A. in Axess, then download the major declaration form from the department web site. Complete the top portion of the form, sign, and email the Director of the Undergraduate Program in Sociology to set up an entrance advising meeting. Then, students declare the Data Science, Markets, and Management subplan in Axess.

The subplan prints on the diploma and transcript.

Major Requirements
A 3.0 GPA is required to enter the Sociology major. The B.A. in Sociology requires 60 units of course work. Units applied to the major must be taken for a letter grade (except for independent study or directed reading), and all earned grades must be ‘C’ or better.

Unit values for courses can vary from year to year. If you have any questions, contact the undergraduate student services specialist in Sociology.

Students are encouraged to complete some course work at the 200-level. Sociology majors are encouraged to participate in directed research or undertake independent research with Sociology faculty. See the department website for additional information.
Requirements
Students in the Data Science, Markets, and Management subplan must take the following courses; substitutions may be made only with consent of the Director of Undergraduate Studies.

Core Requirements
The core requirements include one class in each of: experimental methods, computer programming, analysis of big data, data analysis and regression, network analysis, and Writing in the Major class, as follows:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Course Code</th>

Honors Program
Sociology majors who wish to complete an independent scholarly project under the direction of a faculty member are encouraged to apply for admission to the department's honors program. Admission to the program requires a grade point average (GPA) of 3.5 or higher in courses taken within the major, and an overall GPA of 3.3 (B+) or higher in all undergraduate course work. Applicants are required to identify a Sociology faculty member to advise on the research and writing of the essay. With the approval of the Director of Undergraduate Studies, students may work with faculty advisers in other departments.

Students are encouraged to begin planning their honors thesis in their junior year. SOC 202 (http://exploredegrees.stanford.edu/search/?P=SOC%20202), the Junior Seminar Sociology Writing In the Major course, is strongly recommended for students intending to pursue an honors thesis. Students pursuing honors should take the Sociology methods sequence, SOC 180A and SOC 180B (or approved substitutes) as early in the process as they can. Students begin designing their honors project in consultation with the seminar leader.

To apply for the honors program, students should complete the honors application, obtain an adviser's approval and signature, and submit the application with a brief description of the proposed project and a copy of the student's unofficial undergraduate transcript, to the Director of Undergraduate Studies. Prospective candidates are asked to submit an honors application as soon as possible in their junior or senior year, ideally no later than the end of the fourth quarter prior to graduation (typically Spring Quarter of the junior year). Honors students may earn up to 12 independent study units for work leading to completion of the required honors thesis, excluding units associated with the Capstone Research Seminar.

If the student is admitted to the program, students will be directed to declare the B.A.H. in Axess and drop the general B.A. Completion of honors in Sociology requires:

1. Application and acceptance into the Sociology honors program
2. Completion of all requirements of the Sociology major or Sociology major with subplan
3. Completion of an honors thesis with a grade of 'A-' or higher
4. Participation in the Sociology Honors Colloquium in the Spring Quarter prior to graduation.

If honors program requirements are not met, students must drop the B.A.H. degree program in Axess and declare the B.A. before applying to graduate.

Minor in Sociology
There are two pathways to a Sociology minor:

• the traditional Sociology minor, or
• the Sociology minor subplan in Poverty, Inequality and Policy

The following requirements are for the traditional minor in Sociology. See the Poverty, Inequality and Policy tab (p. ) for those requirements.

Students must complete a minimum of 24 units in Sociology (or 6 classes, whichever is greater) for the minor. Courses must be taken for a letter grade, and a minimum grade point average (GPA) of 2.0 (C) must be achieved. Students who wish to declare a minor in Sociology must do so no later than the deadline for their application to graduate. Related course work from other departments may fulfill a minor requirement. All course substitutions must be approved by the Sociology Undergraduate Program Director.

Course requirements for a minor in Sociology are as follows:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Course Code</th>
<th>Course Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>SOC 1</td>
<td>Introduction to Sociology at Stanford Classics of Modern Social Theory</td>
<td>4-5</td>
</tr>
<tr>
<td></td>
<td>or SOC 170</td>
<td>Self and Society: Introduction to Social Psychology</td>
<td>4</td>
</tr>
</tbody>
</table>
or SOC 180A  

or SOC 180B  

Two foundation courses: see foundation courses required for the major above

Two additional Sociology courses

Minor in Sociology, Poverty, Inequality and Policy Subplan

There are two pathways to a Sociology minor:

• the traditional Sociology minor (p. 4), or
• the Sociology minor subplan in Poverty, Inequality and Policy

The following requirements are for the Poverty, Inequality and Policy subplan. See the Sociology Minor tab (p. 4) for those requirements.

Overview

This minor provides students with the interdisciplinary tools needed to understand and contribute to the science of poverty and inequality. The course work, which is drawn from sociology, economics, public policy, education, history, psychology, and political science, provides state-of-the-art training in the types and forms of poverty and inequality, the causes and consequences of poverty and inequality, and the many programs and interventions to reduce poverty and inequality. It provides opportunities to train in big data analysis, algorithms and predictive models, and qualitative and ethnographic methods. It also provides opportunities to participate in individual and group research projects and to join teams that are building poverty-reducing products, apps, and interventions. It is an excellent foundation for students considering careers in business, public policy, medicine, public health, government service, the law, nongovernmental organizations, foundations, or academia

Course Requirements

The minor requires 24 units. With the exception of the optional research apprenticeship, every course counted toward the minor must be taken for a letter grade (and a grade of 'C' or better must be received). All course substitutions must be approved by the Sociology Undergraduate Program Director.

The following requirements are for the Poverty, Inequality, and Policy minor subplan.

Core

Take two core courses

SOC 3  
America: Unequal 4

SOC 180A  
Foundations of Social Research 4

or SOC 180B  
Introduction to Data Analysis

or ECON 102A  
Introduction to Statistical Methods (Postcalculus) for Social Scientists

Breadth

Choose at least two courses from at least two of the following areas of concentration

Education

EDUC 232  
Culture, Learning, and Poverty 4

SOC 130/EDUC 120C  
Education and Society

EDUC 347  
The Economics of Higher Education

Units

8

SOC 129X  
AFRICAAM 112/CSRE 112X/EDUC 112  
Urban Education

Gender

SOC 153/AFRICAAM 141X/CSRE 141X/FEMGEN 141  
Activism and Intersectionality

SOC 134D  
Sex, Courtship, and Marriage in America

SOC/FEMGEN 142  
Sociology of Gender

SOC/FEMGEN 155  
The Changing American Family

Health and Well-Being

HRP 234  
Engineering Better Health Systems: modeling for public health

HRP 267  
Life Course Epidemiology

SOC 152  
The Social Determinants of Health

Inequality and Mobility

ECON 22N  
Causes and Consequences of the Rise in Inequality

SOC 14N  
Inequality in American Society

SOC 135  
Poverty, Inequality, and Social Policy in the United States

Labor Markets

ECON 145  
The Economics of Labor Markets

ECON 147  
The Economics of Labor Markets

SOC 114  
Economic Sociology

Poverty and the Safety Net

SOC 157 & SOC 158  
Ending Poverty with Technology and Ending Poverty with Technology. A Practicum. (or PUBLPOL 147/148)

ECON 19Q  
Measuring the Performance of Governments in the U.S.

SOC 149/CSRE 149A/URBANST 112  
The Urban Underclass

ECON 11N  
Understanding the Welfare System

SOC 156A  
The Changing American City

Race, Ethnicity, and Immigration

SOC 146/CSRE 196C/ENGLISH 172D/PSYCH 155/TAPS 165  
Introduction to Comparative Studies in Race and Ethnicity

ANTHRO/CSRE 30Q  
What counts as "race," and why?

Electives

Choose two electives. Although all pre-approved courses are listed here, students may petition for approval of other courses related to inequality, poverty, and mobility. Students may also elect to take additional concentration courses in any of the concentration areas above.

LAW 2515  
Environmental Justice 3

EDUC 197  
Gender and Education in Global and Comparative Perspectives 4

FEMGEN 297  
Gender and Education in Global and Comparative Perspectives 4
Coterminal Master of Arts in Sociology

Stanford undergraduates, regardless of undergraduate major, who wish to pursue an M.A. in Sociology may apply for the coterminal master’s program. The coterminal M.A. in Sociology is a flexible, self-designed program. It is possible for students to complete their B.A. and Sociology coterminal M.A. in the fourth year; historically, most students have completed a Sociology M.A. during their fifth year at Stanford.

Application and Admission

Undergraduates must be admitted to the program and enrolled as a graduate student for at least one quarter prior to their B.A. conferment. A cumulative GPA of at least 3.5 in previous undergraduate work is required for admission; GRE test scores also are required. It is highly recommended that applicants have completed at least one Sociology course at the 100 level with a grade of ‘B’ or better.

The department accepts applications once a year; the application deadline is February 3, 2020 for Spring Quarter enrollment. There are no exceptions to this deadline. All application materials are submitted online.

The department does not fund coterminal M.A. students. To learn more about graduate financial assistance, please visit the Stanford Financial Aid Office (https://financialaid.stanford.edu/aid/special/co_term.html).

To apply for admission to the Sociology coterminal M.A. program, students must submit the following:

1. The Application for Admission to Coterminal Master’s Program (https://applyweb.stanford.edu/stanterm) available online in mid-September;
2. Statement of purpose: limited to 2 pages double-spaced. Applicants should outline reasons for pursuing the M.A. in Sociology, including research interests, career aspirations or plans for additional advanced degrees, and other aspects of their academic experiences that may aid the admissions committee in evaluating their motivation for graduate study. Students seeking a research-intensive experience should elaborate on their proposed topic or question (see below);
3. Preliminary Program Proposal for Master’s Degree: this form should be uploaded to the online application packet. At least 45 units of course work relevant to the degree program must be specified. Several example proposals for the 2019-20 academic year appear below;
4. Undergraduate Coterm Application Approval form (https://stanford.app.box.com/v/ug-coterm-application-approval): downloaded from the Registrar’s Office web site and uploaded to the online application;
5. Current unofficial undergraduate transcript;
6. Two letters of recommendation from Stanford faculty familiar with the student’s academic work; additional letters from teaching assistants, employers, or other individuals are accepted as supplemental materials but are not required;
7. GRE scores (must be taken within the past 5 years). Offers of admission will not be granted without official scores from ETS. However, if necessary, unofficial scores can be provided at the time of application.

University Coterminal Requirements

Coterminal master’s degree candidates are expected to complete all master’s degree requirements as described in this bulletin. University requirements for the coterminal master’s degree are described in the “Coterminal Master’s Program (http://exploredegrees.stanford.edu/cotermdegrees)” section. University requirements for the master’s degree are described in the “Graduate Degrees (http://exploredegrees.stanford.edu/graduatedegrees/#masterstext)” section of this bulletin.

After accepting admission to this coterminal master’s degree program, students may request transfer of courses from the undergraduate to the graduate career to satisfy requirements for the master’s degree. Transfer of courses to the graduate career requires review and approval of both the undergraduate and graduate programs on a case by case basis.

In this master’s program, courses taken three quarters prior to the first graduate quarter, or later, are eligible for consideration for transfer to the graduate career. No courses taken prior to the first quarter of the sophomore year may be used to meet master’s degree requirements.

Course transfers are not possible after the bachelor’s degree has been conferred.

The University requires that the graduate adviser be assigned in the student’s first graduate quarter even though the undergraduate career may still be open. The University also requires that the Master’s Degree Program Proposal be completed by the student and approved by the department by the end of the student’s first graduate quarter.

Program Requirements

Coterminal M.A. students are required to take 45 units of course work during their graduate career. All units for the coterminal M.A. must be taken at or above the 100 level and at least 50 percent must be taken at the 200 level or above (which designates advanced-level courses intended for graduate students). Students who wish to take courses outside the department must seek approval in advance from the Sociology student services office; coterminal master’s students are
limited to 5 units from outside of the department and outside courses must be taken in other Social Science departments.

Students may transfer relevant units from their undergraduate career; to be eligible for transfer, courses must have been taken in the three quarters preceding the student’s first graduate quarter. Courses cannot be transferred after a student’s bachelor’s degree has been conferred. See the Registrar’s Office for additional information on course transfer policies.

All units applied to the coterminal master’s degree must be taken for a letter grade, and an overall grade point average (GPA) of 3.0 (B) or better is required for the degree.

Coterminal students are strongly encouraged to take SOC 280A Foundations of Social Research, and SOC 280B Introduction to Data Analysis, in sequence when possible. These methods courses provide skills for research opportunities within the department and in academic or professional careers. They are also an important component of graduate training in the social sciences. Coterminal M.A. students should meet with the Sociology Coterm Director upon acceptance to discuss their program proposal. Program proposals, which outline the courses to be completed for the master’s degree, must be submitted before the end of the student’s first graduate quarter.

The Department of Sociology is able to provide a research-focused experience to a limited number of coterminal Master’s students each year. Students interested in completing a research-intensive curriculum should have already completed SOC 180A/280A and SOC 202, or be enrolled, at the time of application to the coterminal Master’s program. Applicants should indicate interest in their statement of purpose and describe their specific research question or topic. Upon acceptance, research-track students will work with the Sociology Coterm Director to develop an individualized program, which may include engaging in a research apprenticeship with faculty and/or completing an original research project.

The Department of Sociology is committed to providing academic advising in support of the scholarly and professional development of all coterminal Master’s students. When most effective, this advising relationship entails collaborative and sustained engagement by both the advisor and the advisee.

The Sociology Coterm Director guides students in key areas such as selecting courses, designing and conducting research, and exploring academic opportunities and professional pathways. The Sociology student services office is also available to assist coterminal students in navigating policies and degree requirements.

Students are active contributors to the advising relationship, proactively seeking academic and professional guidance and taking responsibility for knowing and adhering to University and Departmental policies, standards, and requirements for coterminal students. For University coterminal degree program rules and University application forms, see the Coterm Degrees section (http://explordegrees.stanford.edu/cotermdegrees) of this bulletin. For additional information regarding the Sociology coterminal M.A. and how to apply, see the Department of Sociology (https://sociology.stanford.edu/academics/masters-degree-programs/coterminal-masters-program) web site.

Master of Arts in Sociology for Current Stanford Graduate Students

The M.A. degree in Sociology is available to current Ph.D. candidates in Sociology and to students in advanced degree programs (Ph.D., J.D., M.D.) from other Stanford departments and schools.

For the M.A. degree, students must complete a minimum of 45 units of Sociology coursework with a grade point average (GPA) of 3.0 (B) or better. Of these units, 30 units must be taken in courses taught by faculty appointed in the Sociology department. Students may petition to use the remaining 15 units as flex units for courses not offered by faculty appointed in Sociology, but that are highly relevant to the discipline. Of these flex units, 5 can be taken as an independent study or directed reading with a member of the faculty appointed in Sociology. All flex units applied to courses not taught by faculty appointed in Sociology must be approved by the Director of Graduate Studies. All courses must be taken for a letter grade when possible. Workshops and colloquia do not count towards the M.A.

Students who wish to engage in more in-depth study on a specific topic may do so by focusing on coursework within an area of study, such as Poverty and Inequality, Social Psychology, Organizations and the Economy, or Race, Ethnicity, and Immigration.

No thesis is required.

University regulations pertaining to the M.A. are listed in the “Graduate Degrees (http://www.stanford.edu/dept/registrar/bulletin/4901.htm)” section of this bulletin.

Although formal application to the M.A. program is not required, applicants from outside of the Sociology department must submit:

1. Graduate Authorization Petition form, available electronically through Axess (https://axess.stanford.edu);
2. Program Proposal for an M.A. form available for download from the registrar’s office website, submitted to Sociology graduate student services manager;
3. Short statement of purpose; 1 page double-spaced, submitted to Sociology graduate student services manager.

Sociology Ph.D.s may receive their M.A. in their second or third year of graduate study. Interested students from other degree programs should visit the Sociology d (https://sociology.stanford.edu/academics/
Doctor of Philosophy in Sociology

The Ph.D. program in the Department of Sociology at Stanford offers rigorous training in sociological knowledge and research methods, and prepares students to embark on successful professional careers in sociology. The program prides itself on world-renowned faculty, cutting-edge research programs, and close interactions between faculty and students.

The following program requirements apply to students who entered the Ph.D. program in 2010-11 or later; students admitted prior to 2010 should consult the department or the Bulletin from their year of admission for requirements specific to their cohort.

Students must complete the following department requirements for the Ph.D. degree in Sociology:

1. Students must enroll in SOC 305 Graduate Proseminar in Autumn Quarter of the first year. The course provides an introduction and orientation to the field of sociology, and to the department and faculty. One unit of credit is given for this course; grading is on a satisfactory/no credit basis.

2. Students must complete 6 quarters of SOC 396 Sociology Colloquium by the end of their third year of study. The Sociology Colloquium is a semimonthly seminar held throughout the academic year, in which distinguished scholars lecture about their cutting-edge research findings. Students must enroll for credit and it is required for all first and second year Sociology students.

3. Students are required to complete 45 units of course work in Sociology in the first academic year, then 15 units of Sociology course work in the second academic year. Course work excludes workshop, independent study, and directed reading units.

4. Theory: Students are required to take two courses in sociological theory. The first course in macro-sociological theory (SOC 370A Sociological Theory: Social Structure, Inequality, and Conflict), and the second course in research design (SOC 372 Theoretical Analysis and Research Design) to be taken in the first year of the program.

5. Methodology: Students are required to complete a series of courses in methodology as well as one methods elective. Students with a background in statistics are encouraged to take an undergraduate statistics course in their first quarter of the program. The required methods sequence, to be taken in order, is listed below.

6. Survey Courses: Students must complete four broad survey courses to demonstrate command of a range of sociological literature. Each year the department specifies which courses meet this requirement. A list of courses that generally fulfill this requirement is listed below. Students should consult with their adviser to ensure that the combination of courses selected to meet this requirement exhibits sufficient breadth. This requirement is normally completed by the end of the second year of residency and must be met by the end of the third year of residency. The most current list of approved survey courses is available on the department website.

7. Workshops: Beginning in year two, doctoral students are required to enroll in at least one workshop each quarter. First year students may attend workshops but are not required to enroll. Sociology workshops are offered for 1-2 units on a credit/non-credit basis only and attendance is required to receive course credit. The Director of Graduate Studies may approve a student's petition to attend a workshop when enrollment is prohibited by unit constraints; such attendance is not noted on the transcript. A list of approved workshops that fulfill this requirement is listed in the requirements section below and also on the department website.

8. Qualifying Exam #1: The first comprehensive examination is designed to ensure that students enter their second year with a firm reading knowledge of two substantive subfields, which students choose. Students write two essays in response to questions provided by the examining committee. The essays are due exactly one week after students receive the questions. Students choose one of two questions to write on for each subfield. Examinations are offered in the subject areas below, based on comprehensive readings lists that are available at the beginning of each academic year. Each subject area has one faculty point person or group leader. Group leaders are responsible for assembling essay questions and agree to meet with students as requested.

Exams subject areas for 2019-20 are:
- Economic Sociology
- Gender
- Historical and Comparative Sociology
- Organizations
- Political Sociology
- Population, Family, Demography, and Marriage
- Race, Ethnicity, and Immigration
- Social Inequality
- Social Movements
- Social Psychology and Microsociology

Students may work together to read and discuss the materials on the comprehensive reading list and be encouraged to do so. They may consult with faculty members as they study for the exams. However, once the examination questions are released, all such collaboration and consultation should stop, and students should work independently on their essays.

9. Qualifying Exam #2: The second qualifying examination provides students with a more focused engagement in a specialized subfield or research area, and tests the student's ability to work and think independently. Exam #2 is due by June 1 of the second year in residence. A two-person committee that includes the primary adviser evaluates the paper. Although the committee is usually comprised of two regular faculty members in the department, emeritus and other faculty outside the department may serve as a committee member with prior approval. Committees and a brief proposal are recorded on the second year qualifying paper form, which the student should complete and submit to the graduate student services manager by December 1 of the second year. Second year students are required to enroll in SOC 385A Research Practicum I and SOC 385B Research Practicum II (both workshops assist in developing the front end of the research paper). Exams are read and graded by both committee members. The grades are an important component of the decision to advance a student to candidacy. Students must submit a one-page proposal to the reading committee and receive its approval by December 1 of the second year. The proposal includes a brief statement of the problem; a preliminary research design; a data source and proof of reasonable access to it; and a short reading list. Students submit the proposal along with second year qualifying paper form to the graduate student services manager. Students should produce a paper that makes an original contribution to sociological knowledge and that is ultimately publishable. That generally means writing a paper that includes data analysis; a full and focused analytic discussion of relevant theory and research; and frame the findings as a contribution to the literature. Students may also produce a paper with a primarily theoretical contribution so long as the prospects for eventual publication are clear to the committee. The paper should contain no more than 8,000 words of text. This paper may not also be employed to meet the Third Year Paper requirement, even in revised form.
10. **Third Year Paper:** In preparation for a career of writing scholarly papers, each student must complete a research paper in the third year of residency. This third-year paper may be on any sociological topic, and may address theoretical, empirical, or methodological issues. The paper is expected to reflect original work and be of publishable quality. Students select a committee of at least two Sociology faculty members to serve as third year paper readers. To ensure that students are making adequate progress on their paper, students are required to provide a first draft of the paper to readers by April 1. The final deadline for paper submission is June 1. The committee provides a review that speaks to (1) whether the paper is publishable and whether the student should therefore invest in attempting to publish it, and (2) what types of revisions, insofar as the paper is publishable, that the student should be pursuing to ready the paper for publication. These comments are shared with the Director of Graduate Studies, and copies of the paper and faculty comments will go in the student file.

11. **TA requirement:** Students must complete three quarters of teaching assistantship in departmental courses, or in other courses by approval. Students working as either a teaching assistant (TA) under the supervision of a faculty member or as a teaching fellow (TF) fulfills this requirement. Students are required to take SOC 300, Workshop: Teaching Development, in Spring Quarter of the first year. In addition, students are encouraged to take advantage of department and University teacher training programs. Students for whom English is a second language are expected to acquire sufficient facility in English to be an effective teacher. It is recommended that students complete their teaching requirements early in their graduate program; the requirement must be completed by the end of the fourth year of residency.

12. **RA requirement:** As partial preparation for becoming an accomplished researcher, each student must complete three quarters of research assistantship, working under the supervision of one or more faculty members, including regular, emeritus, and affiliated faculty. The experience may involve paid (or unpaid) work as a Research Assistant (RA). With the approval of the Director of Graduate Studies, research experience may be acquired by involvement in research projects outside the department. It is recommended that students complete their research requirements early in their graduate program; the requirement must be completed by the end of the fourth year of residency.

13. Students are required to present at least two papers at a major professional meeting (e.g., ASA) in their first five years of graduate study.

14. **Dissertation Prospectus and Prospectus Defense:** In order to demonstrate the ability to conduct independent scholarly work, each student must prepare and successfully defend the dissertation prospectus by the end of May during the fourth year in residence. Students should have their dissertation committee selected by the end of their third year in the program.

15. **Doctoral Dissertation and Defense:** Each student must complete and defend a doctoral dissertation. At the choice of the student (and in consultation with his/her adviser), the dissertation requirement may be met either by (1) submitting a book-length document, or (2) submitting three independent papers. The papers may address the same topic, but should be written as stand-alone, single-authored papers in standard journal format (i.e., AJOS or ASR). None of these papers may overlap substantially with one another, and none of them may be co-authored. (The main criterion in judging substantial overlap is whether any standard journal, such as AJOS, would regard the papers as too similar to publish both.) The dissertation must be submitted to all committee members at least 30 days in advance of the defense date. The dissertation defense serves as the Oral Examination required by the University. Assessment of satisfactory completion is determined by the student’s doctoral committee members. All students are invited to present their dissertation findings at an informal department colloquium.

The faculty are responsible for providing students with timely and constructive feedback on their progress towards the Ph.D. In order to evaluate student progress and to identify potential problem areas, the department’s faculty reviews the academic progress of each first-year student at the beginning of Winter and Spring quarters and again at the end of the academic year. The first two reviews are primarily intended to identify developing problems that could impede progress. In most cases, students are simply given constructive feedback, but if there are more serious concerns, a student may be placed on probation with specific guidelines for addressing the problems detected. The review at the end of the academic year is more thorough; each student’s performance during the first year is reviewed and discussed. Possible outcomes of the spring review include: (1) continuation of the student in good standing, or (2) placing the student on probation, with specific guidelines for the period of probation and the steps to be taken in order to be returned to good standing. For students on probation at this point (or at any other subsequent points), possible outcomes of a review include: (1) restoration to good standing; (2) continued probation, again with guidelines for necessary remedial steps; or (3) termination from the program. Students leaving the program at the end of the first year are usually allowed to complete the requirements to receive an M.A. degree, if this does not involve additional residence or financial support. All students are given feedback from their advisers at the end of their first year of graduate work, helping them to identify areas of strengths and potential weakness.

At the end of the second year of residency, students who are performing well are advanced to candidacy. This step implies that the student has demonstrated the relevant qualities required for successful completion of the Ph.D. Future evaluations are based on the satisfactory completion of specific remaining department and University requirements. Students who are not advanced to candidacy will normally be terminated from the program and awarded an M.A. degree. In some cases, the department may require that a student complete outstanding work or complete unmet requirements before admission to candidacy. The University requires that all students must be admitted to candidacy by the beginning of the third year in residence in order to continue in the Ph.D. program. Therefore all requirements stipulated by the department must be met before registration for the fall quarter of the student’s third year.

At any point during the degree program, evidence that a student is performing at a less than satisfactory level may be cause for a formal academic review of that student.

### Degree Requirements

#### Survey Courses

Students must complete four courses from an approved list. This list is updated and circulated to students at the start of each academic year. **Note:** class offerings rotate; not all approved survey courses are offered every year. The following courses typically fulfill the survey course requirement:

<table>

SOC 363A  Seminar on Organizational Theory  5
SOC 366A  Organizational Ecology  3
SOC 376  Perspectives on Organization and Environment: Social Movement Organizations and Environments  3

Research Methods

Required methodology courses are listed below.

SOC 381  Sociological Methodology I: Introduction  5
SOC 382  Sociological Methodology II: Principles of Regression Analysis  4-5
SOC 383  Sociological Methodology III: Models for Discrete Outcomes  5

Theory

SOC 370A  Sociological Theory: Social Structure, Inequality, and Conflict  5
SOC 372  Theoretical Analysis and Research Design  3-5

Workshops

SOC 311A  Workshop: Comparative Studies of Educational and Political Systems  1-5
SOC 315W  Workshop: Economic Sociology and Organizations  1-2
SOC 325W  Workshop: Graduate Family  1-2
SOC 341W  Workshop: Inequality  1-2
SOC 350W  Workshop: Migration, Ethnicity, Race and Nation  1-3
SOC 368W  Workshop: China Social Science  1
SOC 375W  Workshop: Politics, Morality, and Hierarchy  1-2
SOC 380W  Qualitative and Fieldwork Methods Workshop  1-3

Ph.D. Minor in Sociology

Sociology offers a minor for currently enrolled doctoral students in other Stanford departments and schools. Students must complete a minimum of 30 graduate-level units with a grade point average (GPA) of 3.0 (B) or better. All 30 units for the minor must be in courses taught by faculty appointed in the Sociology department. Students must enroll in the SOC course offerings (not cross-listed sections). There are two exceptions: five (5) of these units may be taken as an independent study or directed reading with a member of the sociology faculty; another five (5) units may be taken in a statistics or methods course taught in another department. All units must be taken for a letter grade. Workshops and colloquium do not count towards the Ph.D. minor. The program must be approved by a Sociology adviser and filed with the Sociology student services office. For a statement of University policy on graduate advising, see the "Graduate Advising (http://exploredegrees.stanford.edu/graduatedegrees/#advisingandcredentialtext)" section of this bulletin.

Graduate Advising Expectations

The Department of Sociology is committed to providing academic advising in support of graduate student scholarly and professional development. When most effective, this advising relationship entails collaborative and sustained engagement by both the adviser and the advisee. As a best practice, advising expectations should be periodically discussed and reviewed to ensure mutual understanding. Both the adviser and the advisee are expected to maintain professionalism and integrity.

Faculty advisers guide students in key areas such as selecting courses, designing and conducting research, developing of teaching pedagogy, navigating policies and degree requirements, and exploring academic opportunities and professional pathways.

Graduate students are active contributors to the advising relationship, proactively seeking academic and professional guidance and taking responsibility for informing themselves of policies and degree requirements for their graduate program.

For a statement of University policy on graduate advising, see the "Graduate Advising (http://exploredegrees.stanford.edu/graduatedegrees/#advisingandcredentialtext)" section of this bulletin.

Chair: Michael Rosenfeld

Director of Graduate Studies: Tomás Jiménez

Director of Coterminal Masters: Aliya Saperstein

Director of Undergraduate Studies: Jeremy Freese

Professors: Karen Cook, Shelley Correll, Jeremy Freese, Mark Granovetter, David Grusky, Tomás Jiménez, Michael Rosenfeld, Gi-Wook Shin, C. Matthew Snipp, Florencia Torche, Andrew Walder, Robb Willer, Xueguang Zhou

Associate Professors: Aliya Saperstein, Forrest Stuart

Assistant Professors: Asad L. Asad, Matthew Clair, Mark Hoffman, Zhou, Matthew Snipp, Florencia Torche, Andrew Walder, Robb Willer, Xueguang Zhou

Adjunct Professors: Glenn Carroll, Raj Chetty, Michele Landis Dauber, Larry Diamond, Daniel McFarland, Walter Powell, Francisco Ramirez, Hayagreeva Rao, Sean Reardon, Jesper Sørensen, Sarah Soule, Adina Sterling

Adjunct Associate Professors: Amir Goldberg, Mitchell Stevens, Christine Min Wotipka

Adjunct Assistant Professors: Patricia Bromley, Angèle Christin, Benjamin Domingue, Sharad Goel, Jennifer Pan

Lecturers: Eva Myersson Milgrom

Adjunct Consulting Professor: Ruth Cronkite

Overseas Studies Courses in Sociology

The Bing Overseas Studies Program (http://bosp.stanford.edu) manages Stanford study abroad programs for Stanford undergraduates. Students should consult their department or program’s student services office for applicability of Overseas Studies courses to a major or minor program.
The Bing Overseas Studies course search site (https://undergrad.stanford.edu/programs/bosp/explore/search-courses) displays courses, locations, and quarters relevant to specific majors.

For course descriptions and additional offerings, see the listings in the Stanford Bulletin's ExploreCourses (http://exploreCourses.stanford.edu) or Bing Overseas Studies (http://bosp.stanford.edu).
