ELECTRICAL ENGINEERING UNDERGRADUATE MAJOR

See the "Department of Electrical Engineering (http://exploreddegrees.stanford.edu/schoolofengineering/electricalengineering)" section of this bulletin for additional information on the department, and its programs and faculty.

The department offers a B.S. as well as a minor in Electrical Engineering.

Electrical Engineering (EE)

Completion of the undergraduate program in Electrical Engineering leads to the conferral of the Bachelor of Science in Electrical Engineering.

Mission of the Undergraduate Program in Electrical Engineering

The mission of the undergraduate program of the Department of Electrical Engineering is to augment the liberal education expected of all Stanford undergraduates, to impart basic understanding of electrical engineering and to develop skills in the design and building of systems that directly impact societal needs.

The program includes a balanced foundation in the physical sciences, mathematics and computing; core courses in electronics, information systems and digital systems; and develops specific skills in the analysis and design of systems. Students in the major have broad flexibility to select from disciplinary areas beyond the core, including hardware and software, information systems and science, and physical technology and science, as well as electives in multidisciplinary areas, including bio-electronics and bio-imaging, energy and environment and music.

The program prepares students for a broad range of careers—both industrial and government—as well as for professional and academic graduate education.

Requirements

Mathematics 1

Select one sequence: May also be satisfied with AP Calculus. 10

<table>
<thead>
<tr>
<th>Units</th>
<th>Mathematics</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 19 &amp; MATH 20 &amp; MATH 21</td>
<td>Calculus and Calculus</td>

<td>Mechanics and Special Relativity and Electricity, Magnetism, and Waves</td>
</tr>
</tbody>
</table>

Science elective. One additional 4-5 unit course from approved list in Undergraduate Handbook, Figure 4-2. 4-5

Technology in Society

One course, see Basic Requirement 4 in the School of Engineering section. The course taken must be on the School of Engineering Approved Courses list, Fig 4-3, the year it is taken. 3-5

Engineering Topics

Minimum 60 units comprised of: Engineering Fundamentals (minimum 10 units), Core Electrical Engineering Courses (minimum 16 units) Disciplinary Area (minimum 17 units), Electives (maximum 17 units, restrictions apply).

Engineering Fundamentals

2 courses required; minimum 10 units

Select one:

<table>
<thead>
<tr>
<th>Units</th>
<th>Engineering Fundamentals</th>
</tr>
</thead>
<tbody>
<tr>
<td>CS 106B</td>
<td>Programming Abstractions</td>
</tr>
<tr>
<td>or CS 106X</td>
<td>Programming Abstractions</td>
</tr>
</tbody>
</table>

Choose one Fundamental from the Approved List; Recommended: ENGR 40A and ENGR 40B or ENGR 40M (recommended before taking EE 101A); taking CS 106A or a second ENGR 40-series course not allowed for the Fundamentals elective. Choose from table in Undergraduate Handbook, Approved List.

Design Course

3-5

Stanford Bulletin 2018-19
Electrical Engineering Undergraduate Major

Select one. Students may select their Design course from any Disciplinary Area.

EE 109 Digital Systems Design Lab (WIM/Design) 3-5
EE 133 Analog Communications Design Laboratory (WIM/Design) 3-5
EE 134 Introduction to Photonics (WIM/Design) 3-5
EE 153 Power Electronics (WIM/Design) 3-5
EE 155 Green Electronics (WIM/Design) 3-5
EE 168 Introduction to Digital Image Processing (WIM/Design) 3-5
EE 262 Two-Dimensional Imaging (Design) 7
EE 264 Digital Signal Processing (Design) 7
EE 264W Digital Signal Processing (WIM/Design) 3-5
EE 267 Virtual Reality (Design) 7
EE 267W Virtual Reality (WIM/Design) 3-5
CS 194 Software Project (Design) 3-5
CS 194W Software Project (WIM/Design) 3-5

Electives 17

Minimum 17 units. The elective units should be sufficient to meet the 60 unit total for the major, over and above the 40 units of Math and Science. Depending on units completed in the Disciplinary Area, elective units will be in the range of 17 units or less. Students may select electives from the disciplinary areas; from the multidisciplinary elective areas; or any combination of disciplinary and multidisciplinary areas. May include up to two additional Engineering Fundamentals, any CS 193 course and any letter graded EE courses (minus any previously noted restrictions). Freshman and Sophomore seminars, EE 191 and CS 106A do not count toward the 60 units. Students may have fewer elective units if they have more units in their disciplinary area.

1 MATH 41 and MATH 42 are no longer offered and have been replaced by MATH 19, MATH 20, and MATH 21. If used for math, EE 103 may not be used as an EE disciplinary elective. PHYSICS 41E may be used in place of PHYSICS 41.
2 MATH 52 may be taken in place of MATH 51. CME 102 can be taken in place of MATH 53.
3 EE 42 may be used in place of PHYSICS 43 (if not used in EE electives area). The EE introductory class ENGR 40A and ENGR 40B or ENGR 40M may be taken concurrently with either EE 42 or PHYSICS 43. There are no prerequisites for ENGR 40A and ENGR 40B or ENGR 40M.
4 For upper division students, a 200-level seminar in their disciplinary area will be accepted, on petition.
5 Students may petition to have either PHYSICS 65 or the combination of PHYSICS 45 and PHYSICS 70 count as an equivalent to EE 65.
6 EE 191W may satisfy WIM only if it is a follow-up to an REU, independent study project or as part of an honors thesis project where a faculty agrees to provide supervision of writing a technical paper and with suitable support from the Writing Center.
7 To satisfy Design, must take EE 264 or EE 267 for 4 units and complete the laboratory project.
8 A course may only be counted towards one requirement; it may not be double-counted. All courses taken for the major must be taken for a letter grade if that option is offered by the instructor. Minimum Combined GPA for all courses in Engineering Fundamentals and Depth is 2.0.

Disciplinary Areas

Hardware and Software Units
EE 103 Introduction to Matrix Methods 1 3-5
EE 104 Introduction to Machine Learning 3-5
EE 180 Digital Systems Architecture (Required) 4
EE 107 Embedded Networked Systems 3
EE 109 Digital Systems Design Lab (WIM/Design) 4
EE 118 Introduction to Mechatronics 4
EE 155 Green Electronics (Design) 4

Stanford Bulletin 2018-19
Honors Program in Electrical Engineering

The Department of Electrical Engineering offers a program leading to a Bachelor of Science in Electrical Engineering with Honors. This program offers a unique opportunity for qualified undergraduate majors to conduct independent study and research at an advanced level with a faculty mentor, graduate students, and fellow undergraduates.

Admission to the honors program is by application. Declared EE majors with a grade point average (GPA) of at least 3.5 in Electrical Engineering are eligible to submit an application. Applications must be submitted by Autumn quarter of the senior year, be signed by the thesis adviser and second reader (one must be a member of the EE Faculty), and include an honors proposal. Students need to declare honors on Axess.

In order to receive departmental honors, students admitted to the honors program must:

1. Submit an application, including the thesis proposal, by autumn quarter of senior year signed by the thesis advisor and second reader (one must be a member of the Electrical Engineering faculty).
2. Declare the EE Honors major in Axess before the end of autumn quarter of senior year.
3. Maintain a grade point average of at least 3.5 in Electrical Engineering courses.
4. Complete at least 10 units of EE 191 or EE 191W with thesis advisor for a letter grade. EE 191 units do not count toward the required 60 units, with the exception of EE 191W if approved to satisfy WIM.
5. Submit one final copy of the honors thesis approved by the advisor and second reader to the EE Degree Progress Officer by May 15.
6. Attend poster and oral presentation held at the end of spring quarter or present in another suitable forum approved by the faculty adviser.

Electrical Engineering (EE) Minor

The options for completing a minor in EE are outlined below. Students must complete a minimum of 23-25 units, as follows:

<table>
<thead>
<tr>
<th>Option</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>Select one:</td>
<td>5</td>
</tr>
<tr>
<td>EE 42</td>
<td>Introduction to Electromagnetics and Its Applications</td>
</tr>
<tr>
<td>EE 65</td>
<td>Modern Physics for Engineers</td>
</tr>
<tr>
<td>ENGR 40A &amp; ENGR 40B</td>
<td>Introductory Electronics and Introductory Electronics Part II</td>
</tr>
<tr>
<td>ENGR 40M</td>
<td>An Intro to Making: What is EE</td>
</tr>
</tbody>
</table>

| Option I: | 8 |
| EE 101A | Circuits I |
| EE 101B | Circuits II |

| Option II: | |
| EE 102A | Signal Processing and Linear Systems I |
| EE 102B | Signal Processing and Linear Systems II |

| Option III: | |
| EE 102A | Signal Processing and Linear Systems I |
| EE 103 | Introduction to Matrix Methods |

In addition, four letter-graded EE courses at the 100-level or higher must be taken (12 units minimum). CS 107 is required as a prerequisite for EE 180, but can count as one of the four classes.
