STANFORD INTRODUCTORY STUDIES

Stanford Introductory Studies

Stanford Introductory Studies (SIS) is a unit in the office of the Vice Provost for Undergraduate Education that manages required and elective academic programs for first- and second-year students:

- Thinking Matters
- Introductory Seminars
- Education as Self-Fashioning (ESF)
- Immersion in the Arts: Living in Culture (ITALIC)
- Structured Liberal Education (SLE)
- Sophomore College
- Arts Intensive

More than 300 tenure-track faculty from all seven schools of the University teach in one or more of these SIS programs, sharing their enthusiasm for learning while encouraging students to discover their intellectual interests. SIS classes promote active learning in an inclusive and supportive classroom environment where individual students receive individual attention and support for their exploration of the full range of expansive and diverse academic opportunities offered at Stanford.

SIS Programs

The Thinking Matters (p. 1) program oversees a curriculum of team-taught required courses and provides entering students with a gateway to liberal education and a guided transition to the intellectual life of the University.

The Introductory Seminars (p. 1) program connects frosh and sophomores with the research faculty of the University through more than 200 small, departmentally based classes drawn from the full range of scholarship and discovery at Stanford.

Education as Self-Fashioning (p. 3) classes focus on the meaning and purpose of a liberal education in seminars that integrate writing instruction with discussion.

SLE (p. 2) and ITALIC (p. 2) offer a comprehensive approach to liberal education throughout the entire year, by integrating academic and residential experiences.

The Sophomore College (p. 3) and Arts Intensive (p. 3) programs immerse students in an academically focused, living/learning residential community during the month of September.

Thinking Matters courses are listed under the subject code THINK (https://explorecourses.stanford.edu/search?view=catalog&filter-coursestatus-Active=on&page=0&catalog=&academicYear=20172018&q=THINK&collapse=) on the Stanford Bulletin’s ExploreCourses web site.

Thinking Matters offers courses that satisfy the one quarter first-year requirement. Taught by faculty from a wide range of disciplines and fields, the Thinking Matters (THINK) requirement helps students develop the ability to ask rigorous and genuine questions that can lead to scientific experimentation or literary interpretation or social policy analysis. Through the study of these questions and problems, students develop critical skills in interpretation, reasoning, and analysis as well as enhance capacities for writing and discussion.

The Introductory Seminars program offers more than 200 small classes for first- and second-year students taught by faculty from across the seven Schools of the University. Professors teach subjects drawn from their research and scholarship and engage students in deep investigation of important questions and issues. Seminars require little or no formal background, and welcome first-year students and sophomores to Stanford's intellectual community. A complete listing of the IntroSems can be found at ExploreIntroSems.stanford.edu (https://exploreintrosems.stanford.edu).

Many seminars satisfy the Ways Breadth Requirements, and several meet the second-level Writing and Rhetoric Requirement (Writing 2). There is no limit on the total number of seminars a student may take. Most seminars are filed through an online selection and pre-enrollment process. Seminars that have space available are open for self-enrollment in Axess, with preference to first- and second-year students. For information about online sign-up and enrollment, see ExploreIntroSems.stanford.edu (https://exploreintrosems.stanford.edu).

Sign-up deadlines for each quarter are at 11:59 p.m. on:
- Autumn Quarter: August 28, 2019
- Winter Quarter: October 13, 2019
- Spring Quarter: January 26, 2020

The Program in Structured Liberal Education (SLE) is a year-long residence-based great works course that satisfies several requirements at once: Thinking Matters, Writing and Rhetoric (both PWR1 and PWR2), and four of the Ways requirements. The curriculum includes works of philosophy, literature, art, and music from the ancient world to the present. The program is interdisciplinary in approach; it emphasizes intellectual rigor and individualized contact between faculty and students.

SLE has two fundamental purposes: to develop a student's ability to ask effective questions of texts, teachers, the culture, and themselves; and to develop intellectual skills in critical reading, expository writing, logical reasoning, and group discussion. SLE encourages students to live a life of ideas in an atmosphere that stresses critical thinking and a tolerance for ambiguity. Neither the instructors nor the curriculum provides ready-made answers to the questions being dealt with; rather, SLE encourages a sense of intellectual challenge, student initiative, and originality.

The residence hall is the setting for lectures and small group discussions. SLE enhances the classroom experience with other educational activities, including a weekly film series, writing tutorials, occasional special events and field trips, and a student-produced play each quarter.

First-year students interested in enrolling in SLE should indicate this preference for their Thinking Matters assignment. SLE is designed as a three quarter sequence, and students are expected to make a commitment for the entire year (8 units each quarter).

ITALIC is an arts-minded, residence-based academic program for first-year students. Using art as the frame for discussing big ideas, frosh who participate in this yearlong academic program are part of a tight-knit community, living together, attending classes, and making art in Stern Hall's Burbank House residence.

ITALIC is built around a series of big questions about the historical, critical, and practical purposes of art. The yearlong experience also fosters close exchanges between students and faculty, guest artists and scholars outside of class over meals, in hands-on arts-making workshops, and on excursions to arts events.

In ITALIC, students look closely at the integration of arts across the University and in the world outside, examining how art can illuminate or challenge existing categories of knowledge, including history, politics, and culture, particularly since the 19th century. Immersed in the arts, they
analyze major works of the visual, performing, and filmic arts, sharpen perceptual skills, and tap into their own channels of creative expression. Turning an aesthetic lens on life's ordinary and exceptional features, \textit{ITALIC} asks: How do the arts provide new ways of thinking about our world and ourselves?

\textbf{Education as Self-Fashioning}

\textit{Director:} Paula Findlen (History)

\textit{Faculty:} Dan Edelstein (French and Italian), Emilee Chapman (Political Science), Andy Hall (Political Science), Margot Gerritsen (Energy Resources Engineering), Blair Hoxby (English), Caroline Hoxby (Economics), Paula Findlen (History), Andrea Nightingale (Classics), Rush Rehm (Classics), Kathryn Starkey (German Studies), Ken Taylor (Philosophy).

Education as Self-Fashioning (ESF) is a unique opportunity offered only in the autumn quarter, since its aim is to introduce entering students to a liberal education. ESF courses provide you with an opportunity to work closely with a faculty member in a seminar-style setting while simultaneously completing your first-year writing requirement. In ESF, we consider writings about education by intellectuals working in various fields, with the aim of articulating different ways that education can be used to structure one's thinking, one's self, and ultimately one's life as a whole. You will grapple with this issue in dialogue with fellow students and faculty from across a wide range of disciplines — from the humanities and social sciences through the natural sciences and mathematics.

ESF satisfies the Thinking Matters, the WR1 requirement, and one Way. ESF is a set of linked seminars related to the general theme expressed in the course title. The seminars, each with a different focus, meet separately as discussion classes led by the faculty; all ESF students also come together for a plenum session or large lecture each week. Each seminar coordinates writing instruction with the course theme in specially designated writing sections.

The three components of ESF are described below. ESF counts as a 7-unit course.

1. A seminar with a faculty member that meets once per week for at least 75 minutes.

2. A section with a writing instructor that meets for sessions of 110 minutes twice per week.

3. A lecture series that will meet once-a-week. These are required for students enrolled in ESF.

Sophomore College (SoCo) offers rising sophomores who share a passion for an area of study an opportunity to meet daily in seminar-size classes with Stanford faculty for lecture and discussion; students may also work in labs, participate in community-based learning, go on field trips, and engage in a range of other activities that facilitate in-depth mentoring relationships. Held before the start of students’ sophomore year, this residential program encourages academic and social connections and transforms classes into intellectual communities, helping participants establish rich relationships with peers and faculty that extend beyond graduation. Seminars are for 2 units; the Sophomore College all-inclusive program fee covers tuition, room, board, books, and class-required travel arranged by the program. Financial assistance is available. The online catalog and additional information about SoCo is available at the Sophomore College (https://undergrad.stanford.edu/programs/sophomore-college) web site.

The Arts Intensive (AI) Program offers rising sophomores, juniors, and seniors the opportunity to study intensively with Stanford arts faculty and small groups of other Stanford students. The Arts Intensive program takes place over three weeks in September before the start of Autumn Quarter.

Arts Intensive courses engage students in the theory and practice of a particular artistic discipline. Courses often include field trips, workshops,
film screenings, studio sessions, or other arts events in the afternoons, evenings, and on weekends. Courses are taught by Stanford arts faculty and often include contributions from professional visiting artists. Arts Intensive students live together in a Stanford residence during the program, making for a rich immersion into a creative community. This unique opportunity allows students to focus on their art practice without the constraints of other coursework. Enrollment is by application and takes place in Spring Quarter for the upcoming September program. Each Arts Intensive course enrolls 10 to 20 students and offers 2 units of academic credit. For more information or to apply, see the Arts Intensive (http://artsintensive.stanford.edu) web site.
